Everyone deserves the opportunity to lead the healthiest life possible. To realize that vision, we work in close partnership with organizations to address our communities’ most pressing needs.

**Total benefit to our communities in 2018**
$617.3 MILLION

**TACKLING WASHINGTON’S BIGGEST HEALTH CHALLENGES**
Our community health needs assessment guides our investments and partnerships. In 2018, we focused on increasing access to affordable health care and services, providing mental health and substance-use services, and addressing social determinants of health and well-being, including housing and food insecurity.

**SHARED PURPOSE ACROSS OUR FAMILY OF ORGANIZATIONS**
At Providence St. Joseph Health, we invest in improving community health across all seven states we serve. Called by our Mission, we are committed to steadfastly serving all within our communities, especially the poor and vulnerable.
Having services all together, under one roof, makes a big difference. It’s a one-stop shop and our homeless population no longer needs to trek from one end of town to the other for basic services.
